Dear Speaker Ryan, Leader McConnell, Leader Schumer, and Leader Pelosi:

The Securing America's Future Act of 2018 (H.R. 4760) does not provide a permanent, workable legislative solution for Dreamers, and would put economic growth in the U.S. at risk.

The Coalition for the American Dream, an organization of business leaders representing every major sector of the US economy, opposes this bill. We urge its cosponsors to work with their colleagues in a bipartisan manner to create commonsense proposals that will provide legal certainty for Dreamers, institute responsible border security enhancements, and avoid significant disruptions in the American workforce and economy.

Respectfully,
The Coalition for the American Dream
